

12 V Battery Tester

BT-300

Suitable for quick testing of 12 V car batteries, capacity 30 up to 200 Ah. with a load current of 100, 200 or 300 A.

- Start up ability using a load current of 100, 200 or 300 A (quick test).
- Charging voltage of the alternator.

TECHNICAL SPECIFICATIONS

General

Battery voltage	12 V
Power supply voltage	8 to 15 V (power supply from tested battery)
Display	8 to 15 V analog indicator
Connection cables	Section 10 mm ² , l = 65 cm, 2x crocodile clip
Dimensions (L x W x H)	245 x 130 x 67 mm

Startup ability

Test current at 11 V	100, 200 or 300 A
Max. allowed test time	20 s
